

Oracle E-Business Suite - User Setup, Inventory Item Lab and P2P Summary

Responsibilities, Item Creation, Stock Receipt, On-hand Availability and Procure-to-Pay Cycle Summary

PART 1: User Setup - Add Responsibilities

Step 1.1: Open the User Definition Window

Login with the System Administrator responsibility. Navigation: System Administrator > Security > User > Define.

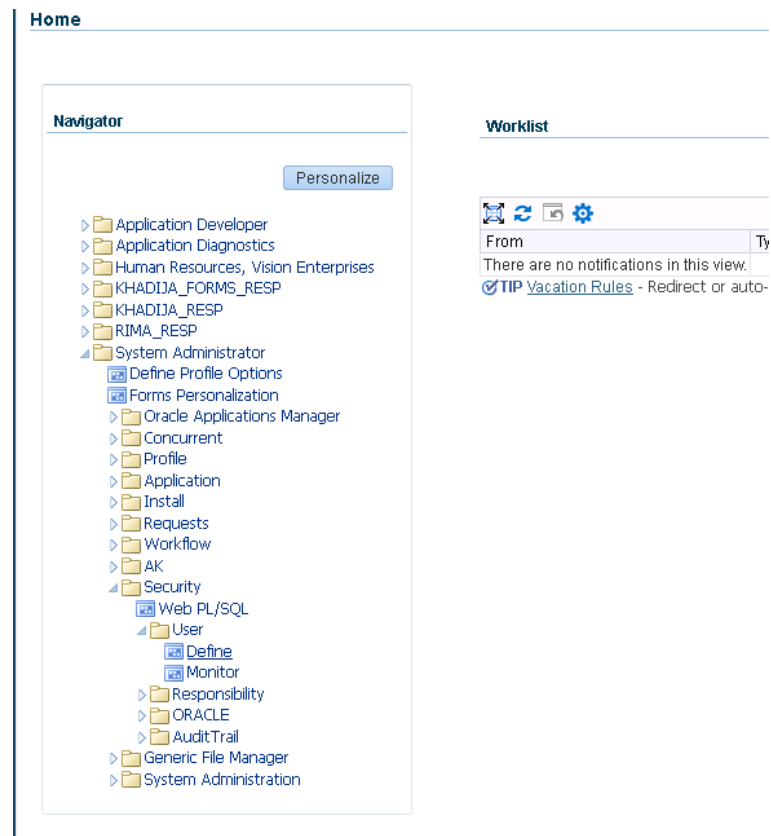

Figure 1: Home page - System Administrator > Security > User > Define

Step 1.2: Query the User

Query user KHADIJA. The Direct Responsibilities tab shows the responsibilities already assigned (Application Developer, RIMA_RESP, KHADIJA_RESP, KHADIJA_FORMS_RESP and System Administrator).

The screenshot shows the 'Users' window in Oracle Applications. The user 'KHADIJA' is selected. The 'Direct Responsibilities' tab is active, displaying a table of responsibilities.

Responsibility	Application	Description	Security Group	Effective Dates From	Effective Dates To
