

Implementing EBS

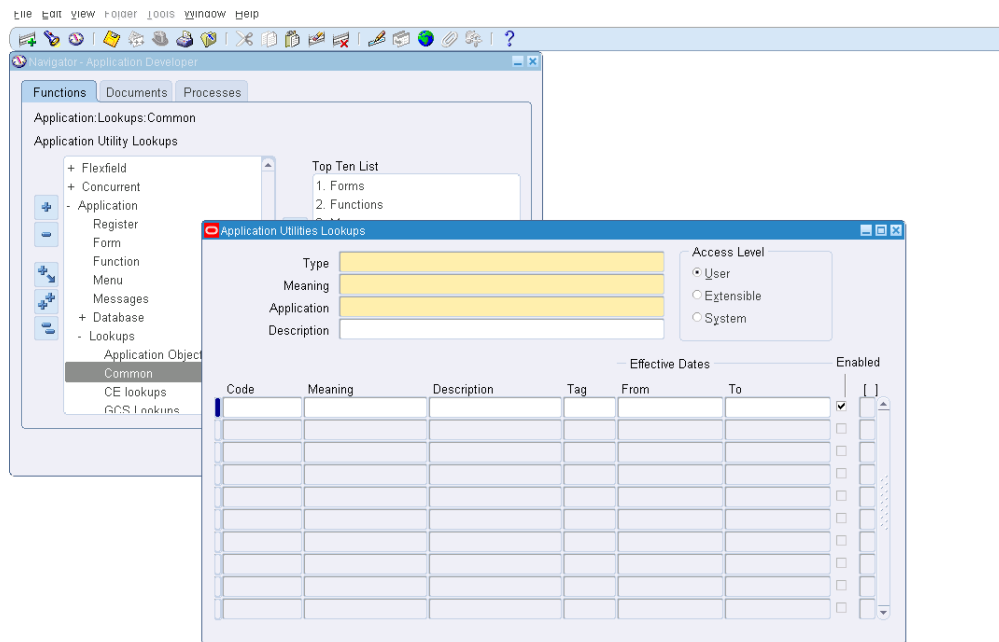

Organization > Create 3 Departments

Fin
HR
Sales

Add 2 More Departments

Marketing
Production
Add the two departments to the existing lookup

Step 1: Open Application Utility Lookups (Common) and create a new lookup Type/Meaning/Description.

Step 2: Enter the lookup Type, Meaning, Application, and Description details.

Step 4: In the Application Object Library Lookups, add the two additional departments (Marketing, Production) to the existing lookup.

The screenshot shows the Oracle Applications - TOAD interface. The main window is titled "Application Object Library Lookups" and contains a table of lookups. The table has the following columns: Code, Meaning, Description, Tag, From, To, and Enabled. The first three rows are populated with data:

Code	Meaning	Description	Tag	From	To	Enabled
IT	INFORMATION TECHNI	INFORMATION TECHNIC		21-SEP-2026		☒
MARKETING	MARKETING	MARKETING		21-SEP-2026		☒
HR	HUMAN RESOURCE	HUMAN RESOURCE		21-SEP-2026		☒
				21-SEP-2026		☒
						☐

						☐
						☐
						☐

The "Application Object Library Lookups" window is also visible in the background, showing the "Functions" tab and the "Application Object Library Lookups" section. The "Application Object Library Lookups" section contains a table with the following columns: Type, Meaning, Application, Description, Access Level, and Effective Dates. The "Access Level" column has radio buttons for User, Extensible, and System. The "Effective Dates" column has checkboxes for Enabled and Disabled.
