

## 0 Assign HR Responsibility

1. Open the **Users** form (System Administrator).
2. Query the user: **KHADIJA**.
3. In **Direct Responsibilities**, add **Human Resources, Vision Enterprises** with a From date.
4. Save (**Ctrl + S**) and re-login.

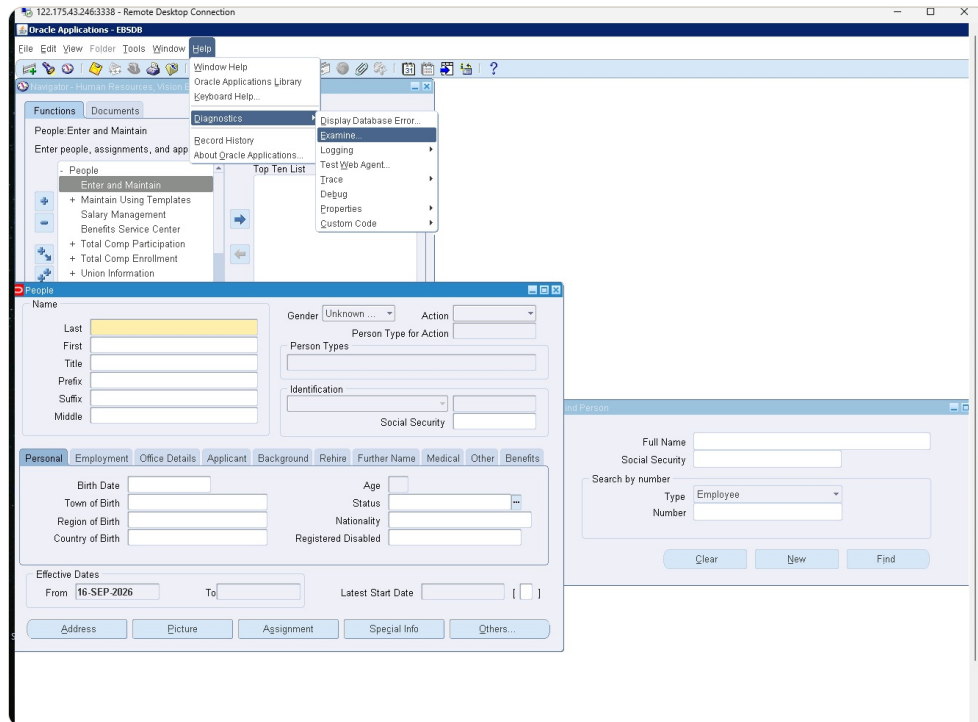

The screenshot shows the Oracle Applications - EBSDB Users form. The User Name is KHADIJA. The form is divided into several sections: User Name, Password, Description, Status (Active), Password Expiration (Days, Accesses, None), Person, Customer, Supplier, E-Mail, Fax, and Effective Dates (From: 08-SEP-2026, To: ). The Direct Responsibilities tab is selected, showing a table of responsibilities.

| Responsibility                      | Application            | Description | Security Group | Effective Dates From | Effective Dates To |
|-------------------------------------|------------------------|-------------|----------------|----------------------|--------------------|
| Application Developer               | Application Object Lib |             | Standard       | 08-SEP-2026          |                    |
| RIMA_RESP                           | Application Object Lib |             | Standard       | 13-SEP-2026          |                    |
| Human Resources, Vision Enterprises | Human Resources        |             | Standard       | 16-SEP-2026          |                    |
| KHADIJA_RESP                        | Application Object Lib |             | Standard       | 13-SEP-2026          |                    |
| KHADIJA_FORMS_RESP                  | Application Object Lib |             | Standard       | 15-SEP-2026          |                    |

## 1 Find the Field Name

1. Open **People > Enter and Maintain** and click inside the **Status** field.
2. Go to: **Help > Diagnostics > Examine...**
3. Read the values: Block = **PERSON** , Field = **D\_MARITAL\_STATUS**

**Target Object → PERSON.D\_MARITAL\_STATUS**

## 2 Rename Status → Marital Status

1. Go to: **Help > Diagnostics > Custom Code > Personalize**
2. New line: **Seq = 1**, **Description = CHANGE A FIELD NAME**, **Level = Function**, **Enabled** ✓
3. In the **Actions** tab:

| Field         | Value                   |
|---------------|-------------------------|
| Type          | Property                |
| Object Type   | Item                    |
| Target Object | PERSON.D_MARITAL_STATUS |
| Property Name | PROMPT_TEXT             |
| Value         | Marital Status          |

4. **Validate** → **Apply Now** → **Ctrl + S**
5. Close and reopen the form.

**Status field is now renamed to Marital Status**

### 3 Make Marital Status Mandatory

1. Go to: **Help > Diagnostics > Custom Code > Personalize**
2. New line: **Seq = 89**, **Description = Making a field mandate**, **Level = Function**, **Enabled** ✓
3. In the **Actions** tab:

| Field         | Value                   |
|---------------|-------------------------|
| Type          | Property                |
| Object Type   | Item                    |
| Target Object | PERSON.D_MARITAL_STATUS |
| Property Name | REQUIRED                |
| Value         | TRUE                    |

4. **Validate** → **Apply Now** → **Ctrl + S**
5. Close and reopen the form.

**Marital Status field turns yellow = mandatory**
